Experience

January 2024

Ralfiz Technologies-Perinthalmanna, Malappuram

Junior Flutter Developer

Promoted to the role of Junior Flutter Developer, responsible for independently developing and maintaining mobile applications. I have seamlessly integrated my work at Ralfiz Technologies into my academic pursuits, dedicating my evenings, weekends, and holidays to ensure the successful delivery of projects. This commitment to balancing work and studies has allowed me to gain real-world experience while excelling in my academic endeavors. This commitment to balancing work and studies has allowed me to gain real-world experience while excelling in my academic endeavors..

January 2022-July 2023

Ralfiz Technologies-Perinthalmanna, Malappuram

Trainee Flutter Developer

Progressed from an internship to a trainee position, demonstrating a strong commitment to professional growth and development. Assisted in the development of mobile applications using Flutter, contributing to the creation of engaging and functional user interfaces. Assisted in the development of mobile applications using Flutter, contributing to the creation of engaging and functional user interfaces. Collaborated with senior developers to resolve technical issues, implement new features, and improve application performance. Gained a deeper understanding of software development methodologies and project management.

April 2021-December 2021

Ralfiz Technologies-Perinthalmanna, Malappuram

Intern Junior Flutter Developer

Successfully completed a 6-month internship program focused on Flutter development, gaining hands-on experience with mobile app development. Worked collaboratively with a team to design and implement user-friendly and visually appealing mobile applications. Participated in code reviews, bug fixes, and feature enhancements, contributing to the overall development process. Acquired knowledge of best practices in Flutter development, including UI/UX design principles and performance optimization.
